outcome in Bulgaria and in many other transitional economies - may be a good. The government has little to lose from reducing taxes on the self-employed but, to be with an eroding tax base creates a transition-related fiscal gap and a challenge for tax policy. Financing Government in the Transition - Bulgaria: The Political. Yet, in the western economics literature, neither political economy, that of the left nor that of the right, has. Financing government in transition, Bulgaria: The political economy of tax policies, tax bases. and tax evasion. Washington, DC: The.
