The Logic Of Political Belief: A Philosophical Analysis Of Ideology

Ian Adams

And indeed, the central element of Jefferson's republican philosophy was his confidence in catering to both the democratic and elitist elements within his political philosophy. Jefferson believed that there was a logic and a rationality to the physical world that the logic of political belief:

The Logic of Political Belief: A Philosophical Analysis of Ideology. Ideological analysis is based on the assumption that cultural artifacts---literature, the arrangement of political and legal system, culture including philosophy, religion, In a capitalist society the economic base the logic of capitalism and the
