The Works In Architecture Of Robert And James Adam

Robert Adam James Adam d. 1794 Henry Hope Reed

Adam, Robert, and James Adam - Infoplease edit. During their lifetime Robert and James Adam published two volumes of their designs, Works in Architecture of Robert and James Adam. Their works in Architecture of Robert and James Adam, published in 1773–79, were well-received and widely copied. The first volume of the series, published in 1773, contained plans, elevations, and sections of buildings, and the second volume, published in 1779, contained designs for furniture and decorative elements. The works in Architecture of Robert and James Adam was a comprehensive and influential work that helped to establish the neoclassical style in architecture and decoration. It was widely admired by contemporary architects and designers, and it helped to popularize the use of classical motifs and proportions in building design. The works in Architecture of Robert and James Adam was a key resource for architects and designers in the late 18th and early 19th centuries, and it remains an important source for students and scholars interested in the history and development of architecture and decoration.
